50,000 copies printed @ \$0.070 each for a total cost of \$3,522.69

Road and Bridge Rehabilitation

DODGE THE DGE II

FULL CLOSURE BETWEEN
LAHSER ROAD
AND
M-8 (DAVISON FREEWAY)

DODGE THE DGE II

Between Lahser Road and M-8

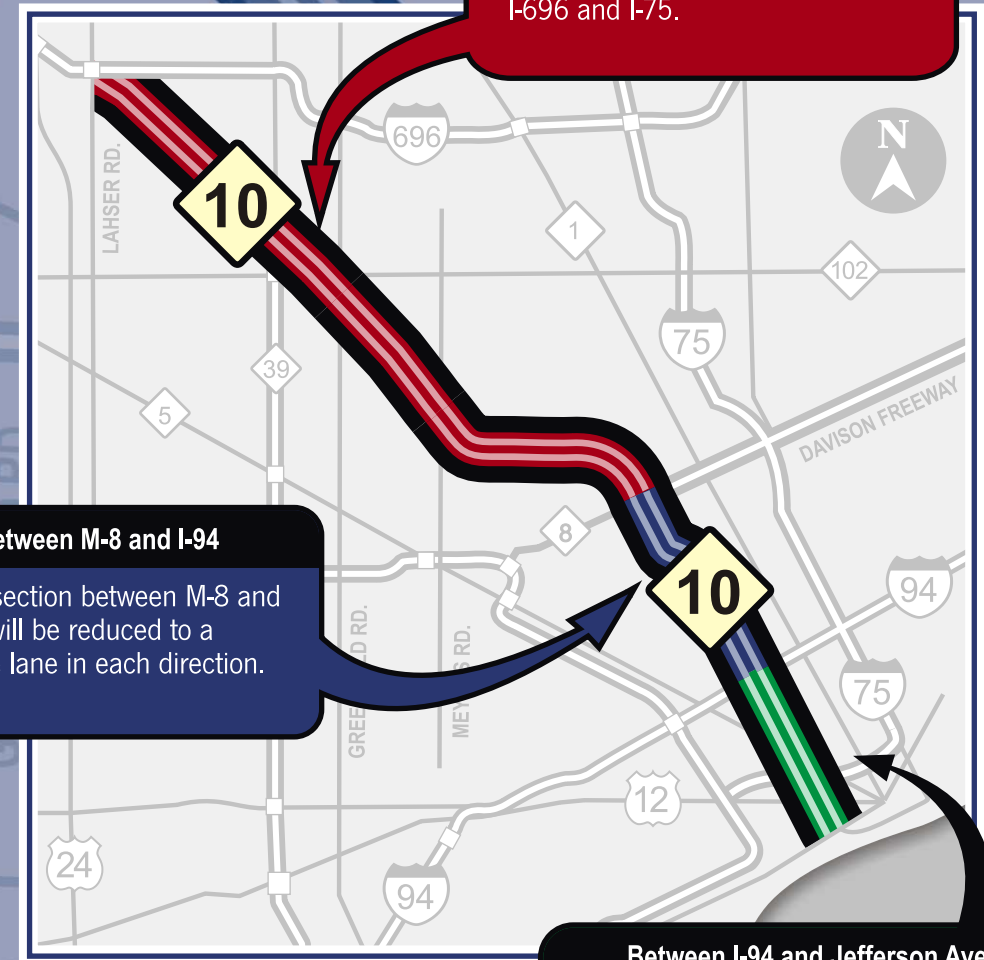

This section between Lahser Road and M-8 is a FULL CLOSURE. The posted detour for through-traffic is I-696 and I-75.

Between M-8 and I-94

This section between M-8 and I-94 will be reduced to a single lane in each direction.

Between I-94 and Jefferson Avenue

This section between I-94 and Jefferson Avenue will have lane closures restricted to nights and weekends.

DODGE THE L¹⁰ DGE II

WHAT:

Scheduled to begin in February 2007, the Michigan Department of Transportation (MDOT) will reconstruct/rehabilitate 14 miles of pavement, repair/replace 50 bridges, upgrade utilities and replace freeway signs on M-10.

WHERE:

The project limits on this \$140 million investment are Lahser Road in Southfield and Jefferson Avenue in Detroit.

WHEN:

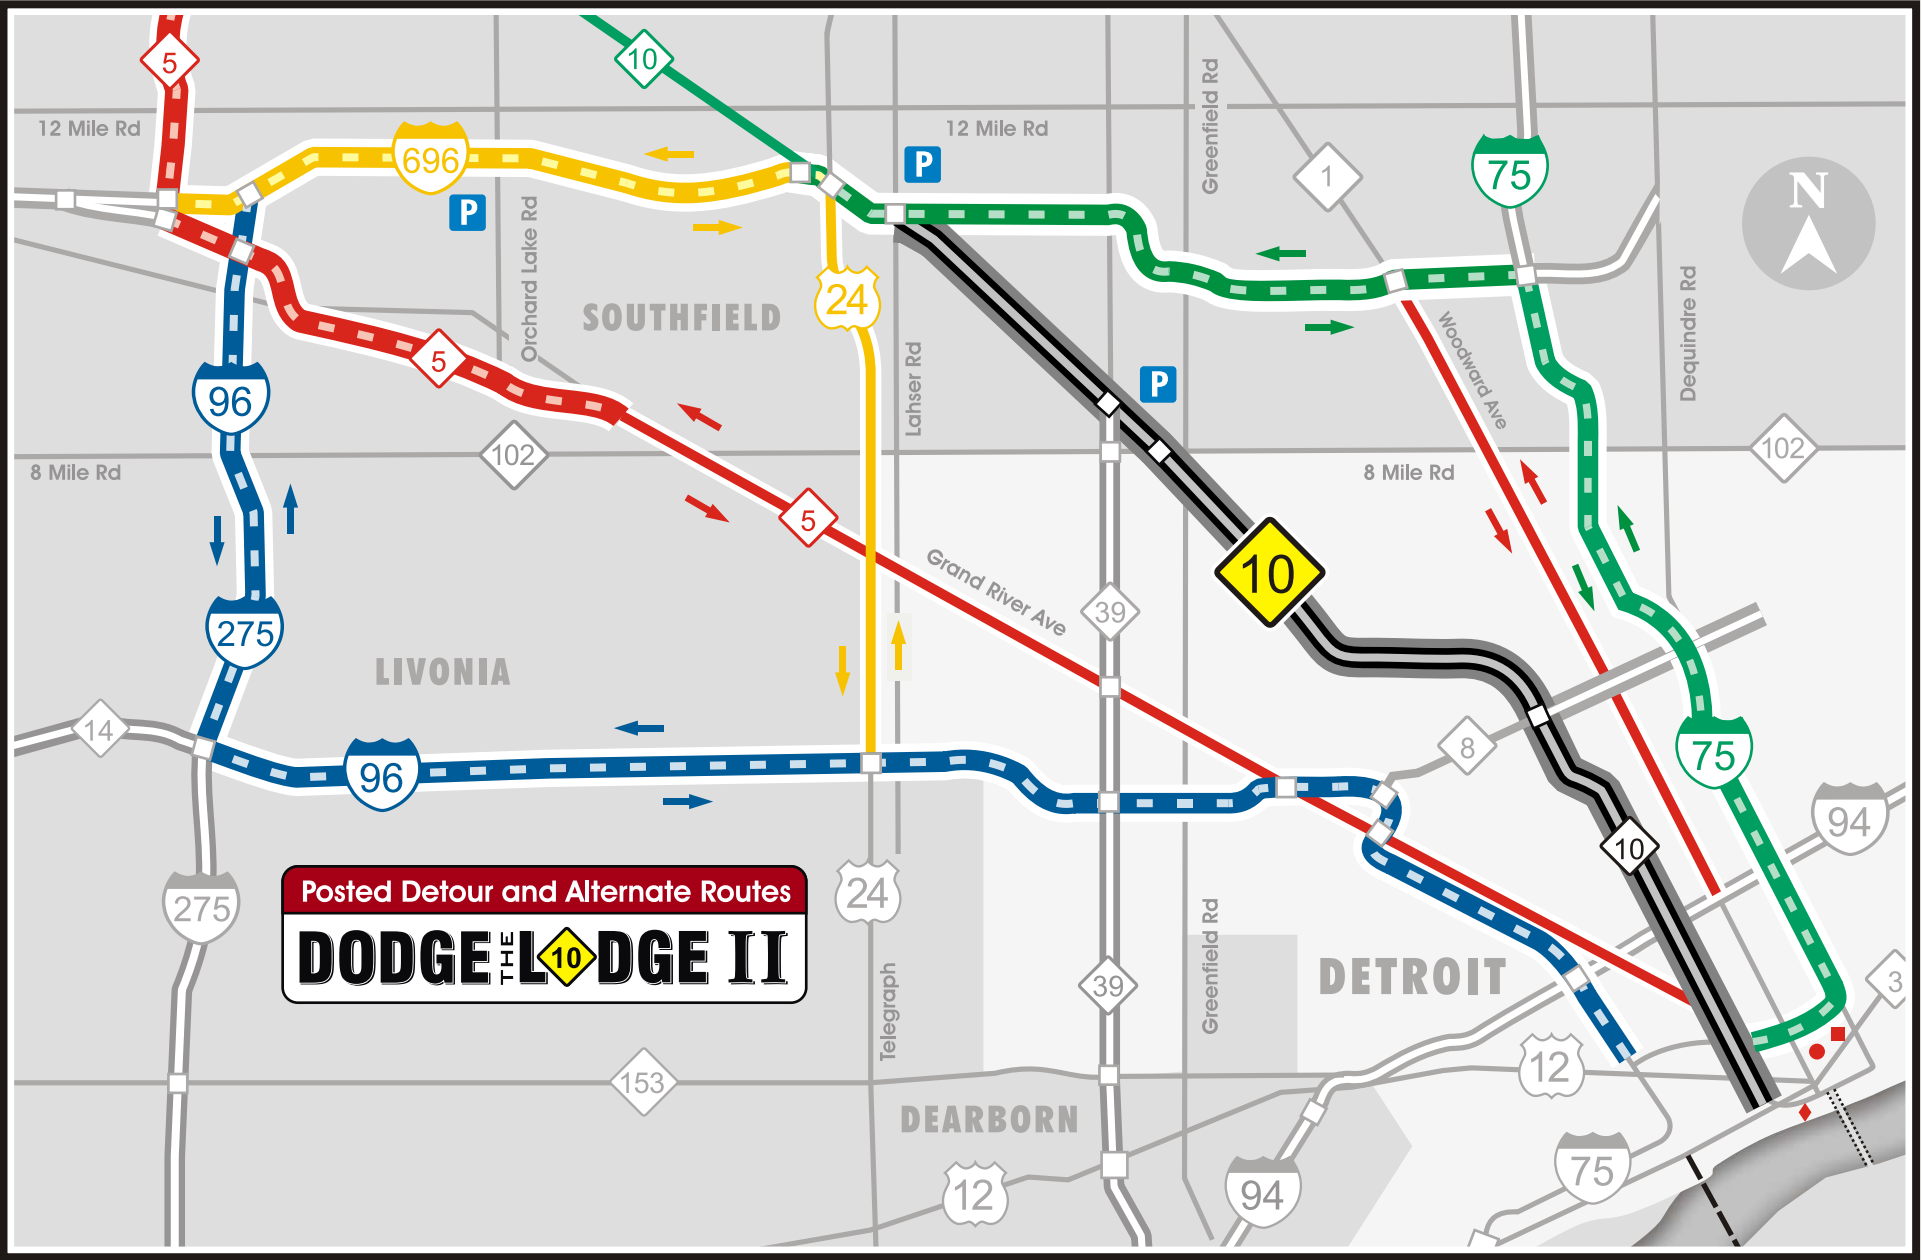

The work is scheduled from February through November 2007.

WHY:

The fastest and safest way to build this project is a total closure of M-10 between the Davison Freeway (M-8) and Lahser Road, allowing work to be completed in one construction season. Otherwise, the project would take two or more years to complete, with only one lane open in each direction, resulting in gridlock. Maintaining two lanes of traffic in each direction would double the cost of the project.

WHAT TO DO:

- Plan an alternate route
- Plan a backup alternate route in case of an incident on primary alternate
- Consider alternate means of commuting (bus, carpool, vanpool)

P SMART Bus/Park and Ride Lots

- Orchard Lake Road near OCC Campus
- Lahser Road north of I-696
- Northland Mall

- Green is the **posted detour** for each direction
- Yellow, blue and red are the **preferred alternate routes**

- Ambassador Bridge crossing
- Detroit/Windsor Tunnel
- Ford Field
- Comerica Park
- ◆ Cobo Center/Joe Louis Arena
